Project Design Phase-II

Customer Journey Map

Date	04 October 2026
Team ID	SWTID-2026-6870
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Customer Journey Map

The journey map follows an employee who needs a standard laptop, from raising the request to the laptop being configured by the Hardware team. It uses the five stages Entice, Enter, Engage, Exit and Extend.

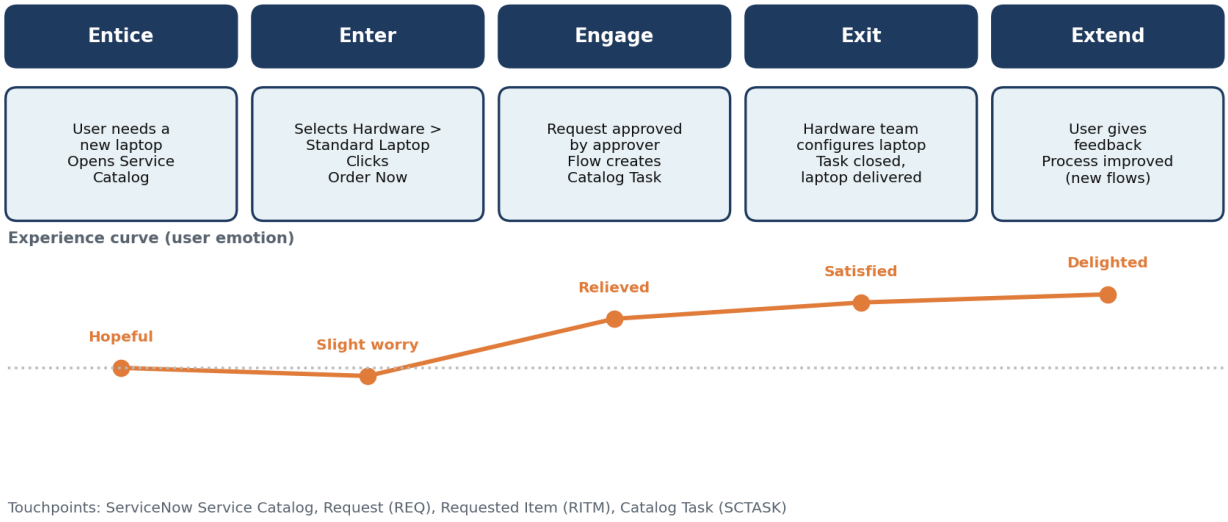

Figure 1: Customer journey for a Standard Laptop request

Stage	What the user does	Touchpoint	Emotion	Opportunity
Entice	Realises a new laptop is needed and opens the Service Catalog	ServiceNow home / Service Catalog	Hopeful	Make the Hardware category easy to find
Enter	Opens Hardware > Standard Laptop and clicks Order Now	Catalog item page, Order Status page	Slightly worried	Confirm submission clearly (request number shown)
Engage	Approver approves; the flow creates the catalog task for Hardware	Request, Requested Item, Catalog Task	Relieved	Automate task creation so nothing is missed
Exit	Hardware team configures the laptop and closes the task	Catalog Task form	Satisfied	Keep short description clear for the technician
Extend	User gives feedback; team adds more automations	Feedback, future flows	Delighted	Extend automation to other catalog items
