Project Design Phase

Problem – Solution Fit Template

Date	04 October 2026
Team ID	SWTID-2026-6870
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Problem – Solution Fit

Problem-Solution Fit means the problem has been confirmed with the customer and the solution actually solves it. The canvas below maps the project to each block of the Problem-Solution Fit canvas.

Purpose

- Solve the delay and manual effort in standard laptop procurement in a way that fits how IT teams already work in ServiceNow.
- Increase adoption by using the Service Catalog that employees already know.
- Understand the existing situation in order to improve it for the IT department and requesters.

Canvas

1. CUSTOMER SEGMENT(S) IT procurement team, employees requesting standard laptops, Hardware team (configuration)	6. CUSTOMER CONSTRAINTS Must use the existing ServiceNow instance Approval must stay in place Limited IT staff time	5. AVAILABLE SOLUTIONS Manual task creation and email follow-ups Pros: simple. Cons: slow, error-prone, tasks get missed
2. JOBS-TO-BE-DONE / PROBLEMS Get approved laptops configured quickly Avoid manual task creation Assign work to the right team	9. PROBLEM ROOT CAUSE No automation links the approved order to the Hardware team's configuration task	7. BEHAVIOUR Users raise requests in the catalog, then chase IT by call or email Procurement team creates tasks by hand
3. TRIGGERS A Standard Laptop order is placed in the Service Catalog A complaint about waiting time	10. YOUR SOLUTION Flow Designer flow "Standard laptop task": Service Catalog trigger → Create Catalog Task → assigned to Hardware group	8. CHANNELS of BEHAVIOUR 8.1 Online: Service Catalog, Request / RITM / Task forms 8.2 Offline: Calls and in-person follow-ups with the IT team
4. EMOTIONS: BEFORE / AFTER Before: frustrated, anxious, overloaded After: confident, in control, relieved
