Project Development Phase

Functional & Performance Testing

Date	04 October 2026
Team ID	SWTID-2026-6870
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	Not specified

Test Scenarios & Results

The functional tests below cover each milestone of the project. Results are taken from the executed project steps and the screenshots captured in ServiceNow.

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Flow creation	Flow Designer > New > Flow; enter name, Global, Run As System User; Submit	Flow "Standard laptop task" is created	Flow created and opened in Flow Designer	Pass
FT-02	Trigger configuration	Add a trigger, search Service Catalog, select it, click Done	Service Catalog trigger saved on the flow	Trigger shows Service Catalog	Pass
FT-03	Create Catalog Task action	Add action Create Catalog Task; set Requested Item, short description, Description, Assignment group, Approval	Action saved with all values	Table Catalog Task [sc_task] with Hardware and Approved values	Pass
FT-04	Flow activation	Save the flow, click Activate, confirm	Flow status becomes Active	Flow shows Active	Pass
FT-05	Flow assignment	Maintain Items > Standard Laptop > Process Engine; set Flow; Update	Catalog item uses the flow	Flow field shows Standard Laptop task	Pass
FT-06	Order placement	Service Catalog > Hardware > Standard Laptop > Order Now	Request submitted with request number	"Thank you, your request has been submitted"; REQ0010001	Pass
FT-07	Request approval	Open request > Approvers; right-click record > Approve	Approval recorded for the request	Approver (Eric Schroeder) record approved	Pass
FT-08	Catalog task generation	Open RITM0010001 > Catalog Tasks tab	Task created and assigned to Hardware	SCTASK0010001, Assignment group Hardware	Pass
FT-09	Task field values	Open SCTASK0010001	Short description, description and approval as configured	Short description and Description "Laptop needs to Configured"; Approval Approved	Pass

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
PT-01	Task creation time	Compare order time with task start time	Task appears without manual action	Order placed 04:07:11; task actual start 04:11:40 (same day)	Pass
PT-02	Multiple orders at the same time	Place several Standard Laptop orders together	One task per order, no failures	Not executed in this project run	Not tested
